Frequently Asked Questions (FAQs)

Products

Where can I buy books, maps, and other products related to Texas geoscience?

The Bureau of Economic Geology (BEG), which functions as the State Geological Survey of Texas, is *the* place for information about Texas geology.

Online, [The Bureau Store](https://store.beg.utexas.edu) is at <https://store.beg.utexas.edu>.

Our physical store is located in northwest Austin, Texas, on the first floor of the Bureau of Economic Geology, UT J. J. Pickle Research Campus, 10100 Burnet Road, Building 130, in Room 1.104.

A map and parking information are online: <http://www.beg.utexas.edu/about/directions-and-maps>.

What do you sell?

We sell more than 2,000 books, maps, CD/DVD's, and Central Texas Rock Kits, which are produced by the staff of the Bureau of Economic Geology. We also sell publications issued by UT's Texas Memorial Museum, the Gulf Coast Association of Geological Societies (GCAGS) and several of its member geological societies, and the Gulf Coast Section of SEPM (GCSSEPM), along with Bureau of Economic Geology caps.

Most of our publications relate to the geosciences in Texas, but some of our work pertains to other states or areas of the world.

We don't sell books or maps issued by commercial publishers; a commercial bookstore such as Barnes & Noble or a map store will carry those items.

Do you sell *digital* versions of your books and maps on CD or as downloads?

We offer digital versions of most of our products, and we are currently expanding into digital format for all of them.

Our digital products are in PDF; when the files are too large to attach to emails, we sell them on CD or via Dropbox. Please let us know if you need a digital version of a specific product.

Do you sell topographic maps?

No. We have some available for viewing in our Texana Library Map Room, but the sellers of topographic maps are the U.S. Geological Survey in Reston, VA, and some map stores or recreational-travel stores.

Do you sell survey, plat, or ownership maps?

No. Those are often available from a county tax assessor/collector's office, a local historical society, or the General Land Office of Texas.

Do you sell geologic maps, or other kinds of maps, of states other than Texas?

No. For geologic maps, contact the State Geological Survey or Department of Natural Resources of your state of interest. A clickable map of all U.S. geological survey locations is available from the [Association of American State Geologists](#) site. For travel/road maps, contact the state's tourism office.

Can I buy maps rolled and sent in a map tube rather than folded?

Yes, most of our maps are available unfolded; please let us know if you need your maps rolled (not folded) and sent in a tube. We charge \$5 for the map tube itself. Delivery may take longer because of the tube.
